Section 1 – Introduction

This directory provides a list of Sentara Community Complete Select's network providers. Sentara Community Complete Select is a Medicare Advantage Health Maintenance Organization Dual Eligible Special Needs Plan (HMO D-SNP), plan H2563-020, for eligible partial-benefit dual members who meet the plan's approved eligibility requirements.

Use this directory to identify providers that participate in the Sentara Community Complete Select network. Before scheduling care, confirm that the provider is accepting new patients and participates in the network at the specific location where you plan to receive services. Provider participation can change. For the most current information, use the online Provider and Pharmacy Directory or call Member Services.

You will have to choose one of our network providers listed in this directory to be your Primary Care Provider (PCP). Generally, you must get your health care services from your PCP. You must choose a network PCP who is accepting new patients. You may choose a specialist, such as an internal medicine doctor or gynecologist, as your PCP if that provider is available as a PCP in Sentara Community Complete Select's network. Your PCP helps coordinate your covered care. Sentara Community Complete Select's PCPs are affiliated with medical groups. When you choose a PCP, you are also choosing the affiliated medical group, and your PCP generally refers you to specialists and services affiliated with that medical group. If you do not choose a PCP, Sentara Community Complete Select will choose one for you.

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory; however, some services may require a referral. Some services, items, drugs, specialists, and out-of-network providers may require a referral or prior authorization. A referral is direction from your PCP or Care Team to another provider. Prior authorization means Sentara Community Complete Select must approve a specific service, item, drug, or out-of-network provider before it is covered. If a required referral or prior authorization is not obtained, the service, item, or drug may not be covered. See Chapter 3 of your Evidence of Coverage or call Member Services for more information.

If an out-of-network provider sends you a bill directly, do not pay the bill. Send it to Sentara Community Complete Select so we can process it and determine whether you owe anything. Call Member Services if you need help.

In an emergency, call 911 or go to the nearest emergency room. You may obtain emergency services from the closest available provider. You may obtain urgently needed services from any qualified provider when you are outside the plan's service area or when network providers are temporarily unavailable or inaccessible. A referral or prior authorization is not required for emergency care, urgently needed care, covered services from a women's health specialist, or kidney dialysis services received from a Medicare-certified dialysis facility when you are outside the plan's service area.

You must use network providers except in emergency care or urgent care situations or out-of-area renal dialysis or other services Sentara Community Complete Select authorizes in advance. If you obtain routine care from out-of-network providers, neither Medicare nor Sentara Community Complete Select will be responsible for the costs.

Section 2 – List of Network Providers

This section lists Sentara Community Complete Select network providers. It includes health care professionals, such as primary care providers, specialists, and behavioral health providers, and facilities, such as hospitals, skilled nursing facilities, and outpatient mental health facilities.

Providers are organized first by provider type and then geographically so you can locate providers near your home.

Provider type—Primary Care Providers, specialists by specialty, hospitals, skilled nursing facilities, outpatient mental health and behavioral health providers, and other covered network providers and facilities.

State—Virginia, unless another state is shown for an approved network provider.

County or independent city—Listed alphabetically.

City—Listed alphabetically.

ZIP code or neighborhood—Used where helpful to narrow the geographic area.

Provider name—Listed alphabetically within the applicable provider type and geographic area.

Provider details—The final roster must show the provider's practice location, phone number, specialty or role in this network, whether the provider accepts new patients or instructions to verify that status, cultural and linguistic capabilities including American Sign Language or interpreter availability, accessibility information, telehealth availability when applicable, and any access restrictions or time-limited participation.

Some supplemental benefits use a separate vendor network. When a separate directory or search tool applies, the applicable benefit materials or Member Services will direct you to that resource. Always verify participation for your exact plan and the service location before receiving care.

Because Sentara Community Complete Select is a D-SNP, all providers in this provider directory accept both Medicare and Medicaid.
